| Needle(DBx1·DPx5) | #11-#18 | #19-#22 |
| Height of feed dog | 0.9mm | 1.2mm |
| Motor | AC servo motor | |
| Weight | 37kg | |
| Power | Single-phase:200~240V Max. electric power consumption 400VA | |

* If you need 7mm specification, please contact our sales representative.

S-7190A

Single Needle Direct Drive Straight Lock Stitcher with Thread Trimmer, Electric Feeding System and Auto Foot Lifter

- Equipped the color LCD touch panel for intuitive operation
- Electric Feed System
- Short remaining thread
- Auto Foot Lifter with electrical knee lifter
- Enhances the operability with new Hand Switch
- Equipped the Sealed oil tank

Advance & Comfort

Advance & Comfort

With direct drive motor, presser foot lifter with electrical knee lifter and electrical stitch length control, this machine offers beautiful sewing quality and comfortable operation.

1 Short remaining thread, (3.5mm) doesn't require after-cutting process

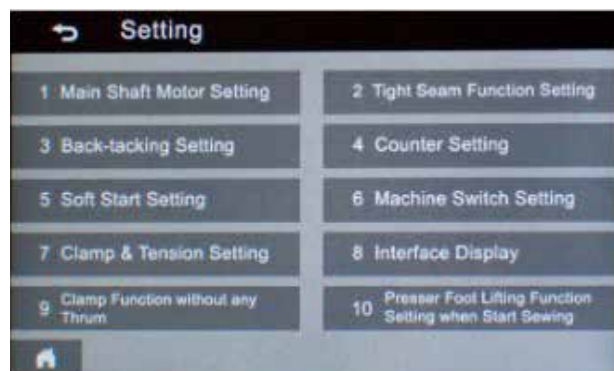

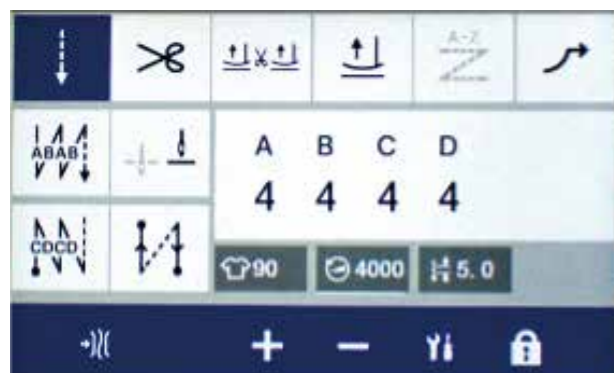

The double action thread trimming mechanism cut's the thread right under the needle hole, realizing the short remaining thread at minimum of 3.5mm. In addition, using the beautiful mode enhances the beautiful sewing end.

Conventional S-7190A Standard S-7190A Beautiful mode

3 Color LCD Touch Panel

The touch panel allows operators to intuitively change settings, and makes it easy to accommodate frequent setting changes.

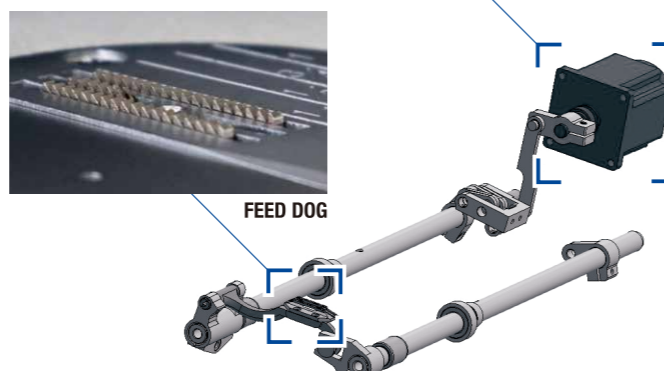

2 Thread Presser Device

This device helps beautiful seam at the beginning of sewing by pulling the needle thread into bottom side.

4 Digital Stitch Length Control

Digitally controlling stitch length prevents variations due to operators. It can be set with an accuracy of 0.1mm.

5 Auto-Footer Lifter and Electrical Knee Lifter

The presser foot lifting mechanism and thread trimming mechanism have been motorized. It will help to reduce operator stress by less noise operation and the electronic knee lift.

6 Clean Sewing

Adopted the sealed Aluminum die-cast box, it avoids oil leakage problem.

7 Hand Switch & LED Light

Useful functions are easily carried out the 3 hand switches. You can assign the function to each switch with various combinations, and it enables your operator to use the machine efficiently. Handy LED lights are equipped at the both side of the needle as a standard for better operator, and it prevents shadows on the garment.
